No. of Functional Features Included in the Solution

Date	15 March 2026
Team ID	SWTID-2026-1940
Project Name	Team Enrollment Confirmation - EduGenie: Google Gemini Powered Learning Assistant
Maximum Marks	5 Marks

Functional Features Overview:

This document lists all the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

S.No.	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
1	Interactive Q&A; Chatbot	Provides conversational academic question answering with session context and AI-generated explanations.	Q&A; / AI Module	Done	Core
2	Automated Quiz Generator	Creates MCQ and short-answer quizzes from study material or supplied text and supports assessment scoring.	Quiz Module	Done	Core
3	Smart Study Summarizer	Summarizes long study content into concise reviews, action points, and revision-friendly material.	Summary Module	Done	Core
4	Concept Simplifier	Explains difficult concepts in simple language using examples and analogies for easier understanding.	Explanation Module	Done	Core
5	Learning Path Planner	Generates sequential learning roadmaps for beginner, intermediate, and advanced learning levels.	Learning Path Module	Done	Core
6	Study History & Progress	Stores user sessions, quiz metrics, study history, and profile-related learning information for later reference.	Storage / History	Done	Supporting
7	User Session & Authentication	Handles user session flow and validates application data before processing requests.	Backend / Auth	Done	Supporting
8	Gemini AI Integration	Connects the application to Google's Gemini API for intelligent tutoring, generation, summarization, and learning assistance.	API / Integration	Done	Core

Feature Summary:

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	8
Core / Must-Have Features	6
Additional / Nice-to-Have Features	2
Features Tested & Verified	To be finalized during final validation

Feature Category Breakdown:

S.No.	Category	Features in Category	Example Features
1	User Interface (UI)	2	Dashboard, chatbot interface, quiz interface, study controls
2	Backend / Logic	3	FastAPI routes, validation, quiz logic, learning-path generation
3	Database / Storage	1	Study history, session records, user/profile data
4	API / Integration	1	Google Gemini API integration and AI request handling
5	Security / Authentication	1	Session authentication, input validation, protected configuration/API key handling

Team Work Allocation:

S.No.	Team Member	Assigned Work
1	R.Priya dharshini	**Backend & AI Integration:** FastAPI backend, Gemini API integration, API endpoints, authentication/session flow, and overall backend integration.
2	S.Shobana	**Frontend & UI/UX:** Dashboard, chatbot/quiz screens, responsive HTML/CSS/JavaScript interface, navigation, and frontend-backend integration.
3	S.Rakshana	**Quiz & Assessment:** Automated quiz generation, question/answer handling, scoring, validation, and assessment testing.
4	E.Shylaja	**Learning Assistance Modules:** Q&A;/concept explanation, summarization, learning-path functionality, prompt design, and response quality checks.
5	S.Sheeba	**Testing, Storage & Documentation:** Study-history/storage checks, test cases, error handling, integration testing, README/setup documentation, and final submission support.

Overall Functional Contribution:

EduGenie combines a web-based learning interface with backend application logic and Google Gemini-powered AI capabilities to support interactive academic Q&A;, quiz generation, summarization, concept explanation, and personalized learning-path planning. The feature set is organized across UI, backend, storage, API integration, and authentication components.
