SKILL WALL

Project Initialization and Planning Phase

Date	01 October 2026
Team ID	SWTID-2026-1940
Project Name	Team Enrollment Confirmation - EduGenie: Google Gemini Powered Learning Assistant
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand the learner's point of view. The statement focuses on the learner's goal, the difficulty faced, the reason for the difficulty, and the feeling produced by it. For EduGenie, the problem is addressed through smart answers, simplified explanations, quizzes, summaries, and personalized learning recommendations.

Example:

I am	I'm trying to	But	Because	Which makes me feel
A student who needs help learning a topic	Understand concepts and get quick answers	Study materials can be lengthy or difficult	Resources may not match my learning level	Confused and less confident

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student looking for a simple and reliable learning assistant.	Ask questions, understand difficult concepts, generate quizzes, summarize content, and get a learning path.	Existing study materials may be lengthy, complex, or difficult to understand.	Students need concise explanations, instant AI assistance, revision support, and step-by-step guidance.	More confident, supported, and motivated to learn.

Project basis: EduGenie is a lightweight AI-powered educational assistant that provides Q&A;, simplified explanations, quiz generation, summarization, and personalized learning recommendations. The project uses FastAPI for the backend and HTML/CSS for the frontend. □filecite□turn1file0□L2-L13□

Team Work Allocation

Work is assigned in the exact order of names provided, based on the modules and activities described in the EduGenie project document. The project structure includes the explanation, Q&A;, quiz, summary, learning-path, frontend, and FastAPI components. filecite turn1file0 L67-L77

S.No.	Name	Assigned Work	Responsibilities
1	**R. Priya Dharshini**	**Project Coordination & Backend API**	Coordinate the team; manage overall project workflow; work on FastAPI backend and REST endpoints for the modules.
2	**S. Shobana**	**Frontend Development & Live Integration**	Develop index.html and style.css; create task dropdown, input area, submit button and result display; connect frontend to backend.
3	**S. Rakshana**	**Q&A; & Explanation Module**	Work on question answering and simplified concept explanation. Test responses and clarity for learners.
4	**E. Shylaja**	**Quiz & Summary Module**	Develop quiz generation and summarization. Handle the three-MCQ JSON output and verify generated results.
5	**S. Sheeba**	**Learning Path, Testing & Documentation**	Develop personalized learning recommendations; perform functional testing; prepare documentation and final review.

Module Mapping

Module / Activity	Member	Source Project Function
FastAPI Backend	R. Priya Dharshini	REST endpoints: /qa, /explain, /quiz, /summarize, /learn/recommendations.
Frontend	S. Shobana	HTML form, task dropdown, text area, submit button, CSS styling and live result integration.
Q&A; / Explanation	S. Rakshana	Gemini-based Q&A; and LaMini-Flan-T5 based simplified concept explanation.
Quiz / Summary	E. Shylaja	Three MCQs with four options each and concise summarization of long paragraphs.
Learning Path / Testing	S. Sheeba	Beginner-to-advanced learning recommendations, resources, functional testing and documentation.

Team: R. Priya Dharshini • S. Shobana • S. Rakshana • E. Shylaja • S. Sheeba
